

Pet Travel check list	Requirements	UK to Europe	Europe to UK
Transport Booking form and signed owner's declaration	A completed booking form including the owners signed declaration giving permission to transport their pet	✓	✓
EU Blue pet passport	A current pet passport with microchip and a valid rabies vaccination. The rabies vaccination must be done on same day as microchip or after the microchip insertion date. Please ensure if the rabies vaccination is a new vaccination the vaccination valid date is 21 days after vaccination. If the rabies vaccination is a booster we will require evidence if not in the pet passport. Please ensure owners details are in the passport along with a signature.	✓	✓
Animal Health certificate	The new AHC can only be done not more than 10 days before travel, but it's best to speak to you vet prior to this to see what timeframes they require to make new AHC. Please ensure that page 9 of the AHC has my name Mark O'Shaughnessy added to the section about the courier.	✓	✓
Owners passport (Copy)	We require a copy of the owners passport to show at border control	✓	✓
Owners travel confirmation	We require a copy of the owners travel to show they are travelling within 5 days of their pet as it is a requirement of the pet travel scheme.	✓	✓
EU-UK Health Check Tapeworm treatment	A vet health check and tapeworm treat is required for pets to return to the UK, which must be done normally the day before collection. Please ensure that the tapeworm treatment used has Prazinquantel as one of its ingredients		✓
